

# 2\$GEM

Global Earn Matrix

## The DeFi Revolution of 2026

Binary Cyclers 2x1 | 16 Matrices | BNB Smart Chain

Smart Contract Verified

BSC Mainnet Live

Fully Audited

The screenshot shows the 2\$GEM dashboard. At the top left is the 2\$GEM logo. At the top right is a button labeled "Ouvrir le tableau de bord". Below the logo is a status indicator: "Réseau principal BSC - Chaîne 56 - En direct". The main heading is "Activez votre" followed by a large red bar. Below this is a paragraph: "Rejoignez la matrice binaire 2\$GEM pour 0,0035 BNB et commencez à gagner grâce aux récompenses de jumelage et à la croissance de votre équipe — entièrement sur la blockchain." At the bottom of the main content area is a red button labeled "Ouvrir le tableau de bord" with a right arrow. At the very bottom of the dashboard, it says "Connecté en tant que 0x8dae...9ba7".

# Why 2\$GEM is the DeFi Revolution of 2026

The DeFi space is saturated with complex protocols that only benefit whales. 2\$GEM changes the game with a radically simple proposition:

Entry at just \$2 (0.0035 BNB) — the lowest barrier in the entire DeFi ecosystem.  
An automated 2x1 binary cyclus where only 2 global entries are needed to cycle.  
16 progressive matrices with automatic propulsion from M1 through M16.  
A global queue (Single Leg) where every new registration benefits the 50 members above.

No tokens to sell. No liquidity pools. No impermanent loss.  
Pure peer-to-peer BNB distribution powered by an immutable smart contract.

**\$2**

**Entry Price**  
Lowest in DeFi

**16**

**Matrix Levels**  
Auto-propulsion

**50**

**Queue Depth**  
Passive income

**100%**

**On-Chain**  
Fully transparent

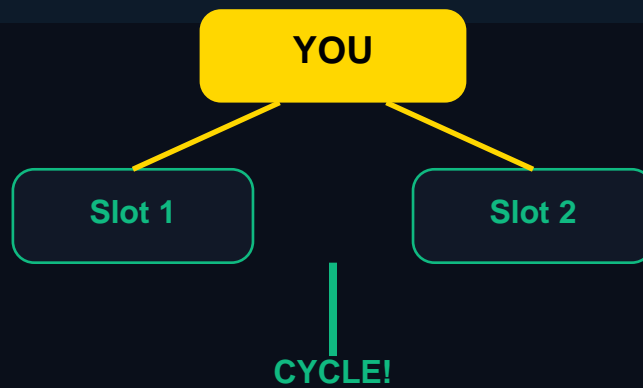

**"In 2\$GEM, you don't need a team. You need a planet."**

The global spillover does the work. Every entry worldwide accelerates your cycle.

# The 2x1 Binary Cyclier

Why only 2 people in the world are needed to cycle you out

## How It Works:

**2 entries fill your matrix = You cycle to the next level**

## The Mathematics of Certainty:

- Matrix Entry:** You pay X BNB to enter Matrix N
- Cycle Gain:** You receive 2X BNB (2 entries x your price)
- Auto-Propulsion:** Your gain automatically pays Matrix N+1 entry
- Upline Bonus:** From M3+, your referrer earns a bonus on your cycle
- Net Result:** You climb 16 levels with only 1 initial payment of \$2

### Solvency Guarantee (Mathematically Proven)

Every BNB entering the contract is immediately distributed. No BNB is created or destroyed.

Cycle Gain = Next Matrix Entry + Upline Bonus + User Balance (exact sum, verified for all 16 levels)

The contract CANNOT become insolvent. This is enforced by the smart contract code, not by trust.

# 16 Matrices of Growth

Matrix	Entry \$	Gain 2x	Next	Upline \$	Zone
M1	\$2	\$4	\$4	\$0	AUTO
M2	\$4	\$8	\$8	\$0	AUTO
M3	\$8	\$16	\$10	\$6	PROFIT
M4	\$10	\$20	\$12	\$8	PROFIT
M5	\$12	\$24	\$14	\$10	PROFIT
M6	\$14	\$28	\$18	\$10	PROFIT
M7	\$18	\$36	\$24	\$12	PROFIT
M8	\$24	\$48	\$33	\$15	PROFIT
M9	\$33	\$66	\$46	\$20	PROFIT
M10	\$46	\$92	\$62	\$30	PROFIT
M11	\$62	\$124	\$74	\$50	PROFIT
M12	\$74	\$148	\$93	\$55	PROFIT
M13	\$93	\$186	\$126	\$60	PROFIT
M14	\$126	\$252	\$152	\$100	PROFIT
M15	\$152	\$304	\$200	\$104	PROFIT
M16	\$200	\$400	---	\$200	INFINITE

### M1-M2: Auto-Propulsion Zone

No upline bonus. 100% of gain funds the next matrix. Pure acceleration.

### M3-M15: Profit Zone

Each cycle splits: next matrix entry + upline matching bonus.

### M16: Infinite Zone

Cycle gain: \$400. Upline: \$200. Your balance: \$200. Manual re-entry. Infinite loop.

# The Global Queue **Single Leg**

Entry: 0.056 BNB (~\$32). One worldwide line. Passive income on every registration.

## How It Works:

- > Every member is placed on a SINGLE global line, in order of registration.
- > When you join, your entry fee is distributed to the 50 positions above you.
- > Each of the 50 uplines receives \$0.50 BNB automatically.
- > The more people join AFTER you, the more you earn passively.
- > Your position is PERMANENT. First movers have a perpetual advantage.

### Fee Distribution per Entry (0.056 BNB)

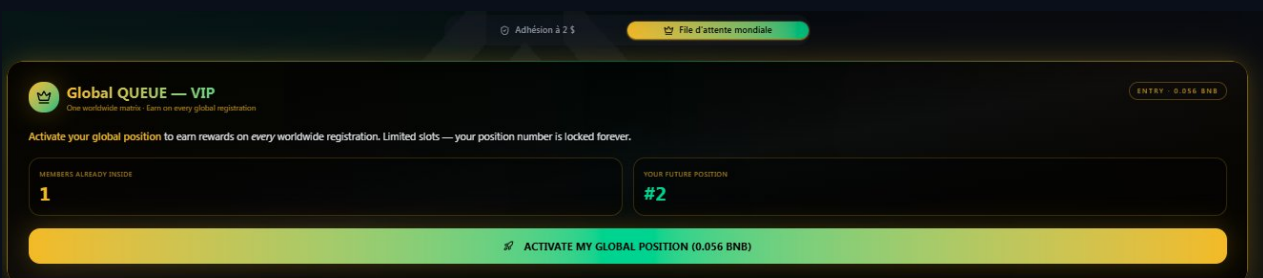

Platform Admin:	\$2 BNB	3.5%
Direct Sponsor:	\$5 BNB	8.9%
50 Uplines (each):	\$0.50 BNB x 50	87.5%

## On Withdrawal:

10% fee deducted: 5% to dividends (shared among ALL members), 5% to admin.

24-hour cooldown between withdrawals. Minimum \$10 BNB.

Maximum 5 BNB per day per user. Funds sent directly to your wallet.

## Dashboard - Real-time blockchain data

The dashboard features a dark theme with green accents. On the left is a navigation sidebar with options like 'Matrices', 'File d'attente', and 'Données financières'. The main content area includes a search bar at the top, a welcome message, and a large green box displaying 'Total des gains BNB' as 0,0000 BNB. Below this, there are buttons for 'Retirer' and 'Consulter l'historique'. A section titled 'Abonnement à 2 \$ - L'offre de base' shows the user's status as 'Actif', their referral ID as 0xf072\_2B81, and their member ID as #2. It also displays 'TOTAL GAGNÉ' as 0,0000 BNB and 'RETRAIT POSSIBLE' as 0,0000 BNB.

## 16 Matrix Cards - Buy positions in any level

The interface displays a grid of 16 matrix cards, labeled M 1 through M 16. Each card represents a different buy position and includes a 'TOTAL' value, a 'Statut' (e.g., 'Prévu'), and a 'Total' amount in BNB. Each card has a green 'Acheter 1 position' button. The cards are arranged in a 4x4 grid, with the total values increasing from M 1 to M 16.

---

## C-01 FIX: Iterative Cascade Engine

Zero recursion. The cypher uses a bounded pending-action queue (MAX\_CASCADE=32) instead of recursive function calls. Impossible to cause gas overflow or stack depth errors, even with buyPositions(1, 10).

## C-02 FIX: Anti-Blocking Queue

Blacklisted members are permanently removed from queues (killed, not bypassed). The queue can NEVER be blocked by a suspended account. FIFO order is always preserved.

## ReentrancyGuard + CEI Pattern

All state changes happen BEFORE external calls. The nonReentrant modifier blocks re-entry attacks. Combined with Checks-Effects-Interactions pattern.

## EOA-Only Enforcement

Smart contracts, flash loan bots, and MEV extractors are blocked at the modifier level. Only real wallets (MetaMask, TrustWallet) can interact.

## Solvency Cross-Validation

Admin price changes are validated across adjacent matrices. It's mathematically impossible to create an insolvent configuration.

## No Permanent Bans

All suspensions are reversible by admin. emergencyRelease() can free any trapped funds. No user's BNB is ever permanently locked.

---

## Option A: MetaMask

1. Install MetaMask from metamask.io (browser extension or mobile app)
2. Create a wallet and SAVE your seed phrase securely (offline!)
3. Add BSC Network: Settings > Networks > Add > BNB Smart Chain  
- RPC: <https://bsc-dataseed1.binance.org/> | Chain ID: 56 | Symbol: BNB
4. Buy BNB on Binance and send to your MetaMask BSC address
5. Visit <https://2dollars.life> and click 'Connect Wallet'
6. Click 'Register' (\$2 = 0.0035 BNB) with your referrer link
7. Done! You're in Matrix 1. Wait for 2 global entries to cycle.

## Option B: Trust Wallet (Mobile)

1. Download Trust Wallet from the App Store or Google Play
2. Create a wallet and backup your recovery phrase
3. BSC is already configured by default in Trust Wallet
4. Buy BNB directly in Trust Wallet (via MoonPay/Simplex)
5. Open the built-in browser (DApps tab)
6. Navigate to <https://2dollars.life>
7. Tap 'Connect' then 'Register' with your sponsor's link
8. Approve the transaction (0.0035 BNB + ~0.0002 gas)

# Your Position Is Waiting.

Every second, someone could be taking the position above you.  
The earlier you join, the more you earn. The math is absolute.
